4. Note edges will be perfectly cropped

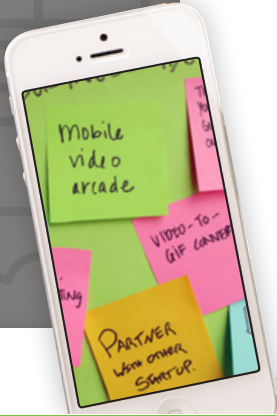

Quick Tip: Road Calls

Keep a pad of Post-it® Notes in your car to record names, meeting times or other important details.

ORGANIZE & SET REMINDERS

Once Post-it® Notes have been captured into Evernote, you can organize them into notebooks, tag them, and set Reminders as you would with any other note in Evernote.

For the best experience, however, use a note from the Post-it® Notes Evernote Collection, where each Post-it® Notes note color can be automatically assigned to one Evernote notebook, one Evernote tag, and one Post-it® Notes Reminder.

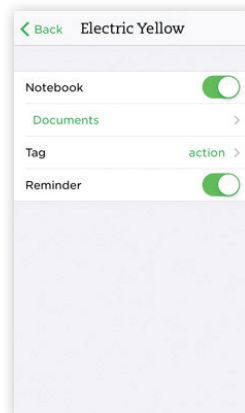

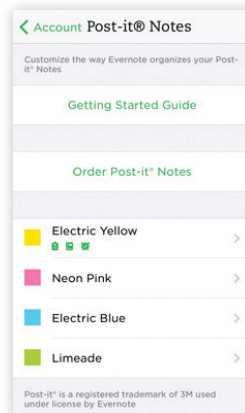

ASSIGN NOTEBOOKS, TAGS & REMINDERS

To customize your Post-it® Note settings, do the following:

1. Tap your username from the Home Screen to bring up **Account Settings**
2. Scroll down and select **Post-it® Note** settings
3. Select the Post-it® Note color to change its associated notebook, tag, or reminder

An example of how you could organize your Post-it® Notes in Evernote:

1. **Electric Yellow Post-it® Notes** – Save to a “To do” notebook with Reminders and view all of them in the Reminders List
By default, Electric Yellow Post-it® Notes come preset with Reminders
2. **Limeade Post-it® Notes** – Tag as “To Share,” so you can easily identify notes you would like to share with others
3. **Electric Blue Post-it® Notes** – Save into a “Design Ideas” notebook
4. **Neon Pink Post-it® Notes** – Save into a “Leisure” or “Just for Fun” notebook

SEARCH HANDWRITTEN NOTES

Once a Post-it® Note is saved into Evernote, all handwritten text on the note is recognized and becomes searchable. Just search for any word inside Evernote and all notes containing that word will appear.
