

Why Keurig® Brewing Systems?

CHOICE. With over 400 varieties of gourmet coffee, tea, hot cocoa, iced, and specialty beverages from the world's finest brands, everyone will be able to brew the beverage they love.

CONVENIENCE. At the touch of a button, every cup is fresh-brewed, in about a minute, with no mess or cleanup.

NO COFFEE WASTE. Keurig® brewing systems brew one cup at a time so there's no stale coffee to throw out.

QUALITY. Keep your employees and customers delighted with fresh-brewed gourmet coffee.

COMMERCIAL GRADE. Our commercial brewers are engineered to stand up to the toughest demands of commercial use and brew about 10 times the volume of a typical home brewer.

No two businesses are alike. **Choose the Keurig® brewer that has the features and capacity you need.**

K140

This versatile brewer will make a big impression on any small business.

K150

This brewer has all the features and certifications to serve small and medium-sized businesses and foodservice locations.

K3000SE

Designed for large businesses and foodservice locations, this full featured brewer dispenses beverages in less than 60 seconds.
