

Germ Hot Spots are Everywhere

Lots of people don't have great hygiene habits. When their unwashed hands touch common surfaces and objects they leave their germs behind. The numbers may surprise you.

Average desk has more than

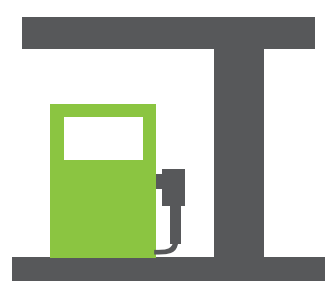

20K+

germs per square inch

Surfaces teachers touch have

10x

more bacteria per square inch than those touched by other professions

70%

of gas pump handles are highly contaminated

50%

of home TV remotes tested positive for cold viruses

40%

of escalator rails are highly contaminated

How Can You Protect Yourself?

wash

wipe

sanitize

HYGIENIFY!*

The wash, wipe, sanitize protocol reduces the probability of infection from colds and flu in the workplace by about 80%.¹

Be Prepared this Cold and Flu Season

Exceptional Workplaces*

¹The reduction in probability of infection is based upon mathematical modeling referenced in the Workplace Wellness Intervention Study.
